Professional Summary

Full-Stack MERN Developer with 1.5 years of hands-on experience building and maintaining production-grade web applications. Proven experience in subscription systems, Razorpay payment integration, WhatsApp automation, and SEO implementation. Strong in MongoDB data modeling, React–Node.js integration, and resolving live production issues. Focused on scalable, reliable solutions that support revenue-driven business workflows.

Technical Skills

Frontend: React.js, Redux, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, SEO Implementation
Backend: Node.js, Express.js, REST APIs, Authentication
Database: MongoDB, Mongoose, SQL
Tools: Git, GitHub, GitHub Copilot, VS Code, Cursor, npm, Postman, Docker, Jira, Power BI

Professional Experience

Aii Venture Pvt. Ltd. — Full Stack Developer   Aug 2024 – Present
GiftyGen | MERN Platform

- Built and maintained a subscription management system including plan tracking, renewals, expiry detection, and status indicators.

- Integrated Razorpay payments covering order creation, verification, and success/failure handling.

- Implemented automated WhatsApp notifications for gift-card delivery, payment confirmations, reminders, and expiry alerts.

- Connected React frontend components with backend APIs for real-time data rendering and improved UI responsiveness.

- Fixed production bugs related to data consistency, formatting, and frontend–backend communication.

- Performed end-to-end debugging and testing to ensure stable user journeys across critical features.

   STUDIESHQ — Frontend Developer (MERN Platform)

- Improved mobile responsiveness across multiple pages for consistent cross-device performance.

- Implemented media queries, breakpoints, and layout fixes to enhance UI stability and accessibility.

- Ensured strict alignment with design standards for a polished browsing experience.

Projects

Employee Management System — Angular

- Developed a complete employee management dashboard with full CRUD functionality.

- Built modular, responsive components using Angular and reactive forms.

- Implemented sorting, filtering, validation, and optimized data tables.

- Delivered maintainable code using structured module and component architecture.
